Learning German at a German „Gymnasium"

You are from abroad? You are moving to Munich?
Your child is to learn German at a German school?

The Adolf-Weber-Gymnasium in Munich
offers a German transition-year course for pupils from 11 to 15 years.

More than a German language course:

The language preparation classes at the Adolf-Weber-Gymnasium.

The objective of the one-year-course is:

To enable your child:
- to follow all lessons by training listening and reading comprehension
- to independently expand specific vocabulary needed for each subject
- to write comprehensible texts and essays as required in the German "Gymnasium"
- to understand solution-based tasks.

To integrate your child into the regular class in the "Gymnasium" in three steps:
- Step 1: language preparation year
- Step 2: admission as a so-called "guest pupil" after one year of German preparation class
- Step 3: admission as a regular pupil after "guest"-status-year.

To support you in case we recommend a change of school form after the language preparation class.

Structure of the course

1. First phase:
Intensive German course (25 lessons per week)
Lesson in English.
Lesson in Maths.

2. **First evaluation** of the pupil's progress and further decisions taken by teacher team. See 3.

3. **Second phase:**
Intensive German course
Lesson in English
Lesson in Maths
If fit and/or necessary, integration into some subjects of regular classes according to age.

4. **Second evaluation** by teachers on
- progress of the pupil with regard to the demands of the German "Gymnasium"
- extended integration into a regular class

5. Continuation of 3.

6. **Final evaluation** and decision whether the pupil can manage the upcoming demands in a regular class and school counselling.

You are interested in this course?

Please register in the office of the school for the **entrance examination**.

The **entrance examination** for admission consists of an English test, non-verbal exercises and a ten-minute talk between teachers and their families. No German is required.
