

# Charta of Varna

## Living in a smart environment in 2030 - Chances and challenges

### The students' demands

#### 1. Social equality

- / shelters for homeless people and also for animals
- / free medicine for poor people
- / machines as food dispensers
- / donation of left-over food
- / equal salaries for women and men
- / freedom of expressing thoughts

#### 2. Leisure, recreation and health

- / more recreation centers and sports facilities
- / more public restrooms
- / removal of fast food restaurants
- / education of awareness of food choices

#### 3. Education

- / improvement of educational equipment: better computers, laptops for every student, projectors in every classroom, equipment for natural science subjects
- / better equipment for disabled students, inclusion of disabled students
- / more prestige and salaries for teacher
- / therapists and tutors at school
- / more schools of primary education
- / one European school system and curriculum
- / lunches should be provided for every student
- / free education, books and papers
- / subject: political education, information about the parties' intentions
- / education of soft skills – presentation, ways of communication
- / removal of final exam and decrease pressure
